

**DENVER MUSEUM OF NATURE AND SCIENCE
VENUS WINDS PROJECT
MEETING AGENDA**

Date/Time/Location 28 Aug 2014, 6:00 PM Exploration Studio 106

AGENDA ITEMS CARRIED FORWARD

New Venus Winds researcher recruitment from current DMNS volunteers Art
Introduce new researchers, **Yvonne Boudreau, Payam Diba, Dylan Krider, Christine Stewart, Ricardo Viera.**

Venus Winds wiki improvements Mark
Postponed until we enlist more researchers

Mathematics of the rectangular coordinates transformation Mark, Art
Postponed

Investigate some images on JPL web sites Mark
Postponed

NEW AGENDA ITEMS SINCE LAST MEETING

Introduction Mark
Mark will give an overview of the Venus Winds Project, including the scientific motivations, the acquisition of images and spectral data, processing steps and emphasis on precision in the processing steps needed to assure accurate results.

Venus Winds wiki Mark
Mark will discuss the scope of the Venus Winds wiki to which analysts have complete access to data. He will distribute new log in names and passwords. In addition, the wiki is the place to access tutorials and copies of relevant journal articles.

Wind velocity computations for 12 July 2004 images Mark
Mark will introduce and discuss nine new images from 12 July 2004. He will provide a new spreadsheet for the velocity computations.
